Central meridian of -81.00°, rotating map 0.026983° to orient page to true north

Data is provided by The National Map (TNM), is most current at the time of map generation, and includes features from the themes of Elevation, Hydrography, Geographic Names, Boundaries, Transportation, Structures, and Land Cover. There are no use constraints, however, users should be aware that temporal changes may have occurred since these data were collected and that some data may no longer represent actual surface conditions. Users should not use this data for critical applications without full awareness of its limitations. Map not for navigational use.

This map is not a legal document. Boundaries may be generalized for this map scale. Private lands within government reservations may not be shown. Obtain permission before entering private lands.

Acknowledgement of the U.S. Geological Survey would be appreciated for products derived from these data.
